

Homework 12

Math 282 Computational Geometry
Spring 2019

Solve the following problems from the textbook, and submit your solutions either on Moodle or in the homework mailbox (RMS level 3, near the fireplace) by 4:00pm on **Friday, May 10**.

1. Exercise 6.56
2. Exercise 6.59 — do the cube and tetrahedron only
3. Exercise 7.1
4. Exercise 7.2

There are only four problems this week, but you should also be working on your final project.
